

EMERGENCY RESPONSE PLAN — FIRE & INJURY

Site: 1600 Mount Fee Road, Whistler, BC

Revision	Date	Reason for revision
Rev. 3	September 11, 2026	Corrects Rev. 2, which had the wrong step order. This plan now matches the poster posted on site and given to WorkSafeBC: Evacuate, Sound the Alarm, Call 911. The real change made after the August 14, 2026 fire (Ref# 38399-P1) was the alarm duration — minimum 10 seconds, since a shorter blast was not heard clearly that day.

FIRE

- 1. EVACUATE THE SITE** — Leave tools and work in place; do not stop to collect belongings.
- 2. SOUND THE ALARM** — One (1) long blast, minimum 10 seconds.
- 3. CALL 911** — Give the address (1600 Mount Fee Road, Whistler), your name, and the nature of the fire.
- 4. GO TO THE MUSTER POINT** — Report to your supervisor for a head count.
- 5. WAIT FOR ALL CLEAR** — Do not re-enter the evacuated area until directed by the Site Supervisor or Fire Department.

INJURY

- 1. CALL FIRST AID ATTENDANT** — Three (3) short blasts.
- 2. MAKE THE AREA SAFE**
- 3. GET FIRST AID ATTENDANT** — Attendant treats the person as per standard.
- 4. CALL 911** — If the injury is serious.
- 5. GUIDE EMERGENCY SERVICES** — Direct paramedics to the injured worker's location.
